

Guarding my Eyes

Looking at something I shouldn't

can cause epinephrine, a hormone, to be released into

the pleasure center of my brain which

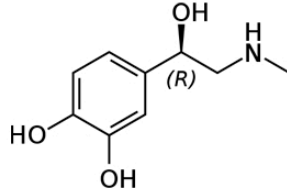

can cause an addiction.

So I must guard

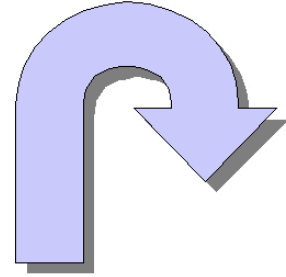

my eyes by turning away

and not looking.

Create an accordion booklet about guarding your eyes. Cut out the words and paste them into the correct boxes. Glue the first strip to the 2nd strip to make one long strip.

Glue the bottom of the first strip here

Glue here to your lapbook or notebook.
